

# Preserve Capital, Fight Taxes

Intermediate-Term Tax-Free Bond fund helps preserve capital and generate income free of federal taxes through actively managed positions in investment-grade, intermediate-term municipal bonds.

*Data presented reflect past performance of Investor Class shares. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance shown. To obtain performance data current to the most recent month end, please visit [americancentury.com](http://americancentury.com). Investment return and fund share value will fluctuate, and redemption value may be more or less than original cost. Data assume reinvestment of dividends and capital gains. For information about other share classes available, please consult the prospectus. There is no guarantee the fund will meet its investment objective.*

### The bond market's sweet spot

Intermediate-Term Tax-Free Bond invests in the market's sweet spot, intermediate-term bonds. Historically these securities with two- to 10-year maturities have delivered competitive returns with less risk than long-term bonds. (Based on a comparison of the Barclays Municipal Bond 7 Year Index and Barclays Municipal Bond Long Index.)

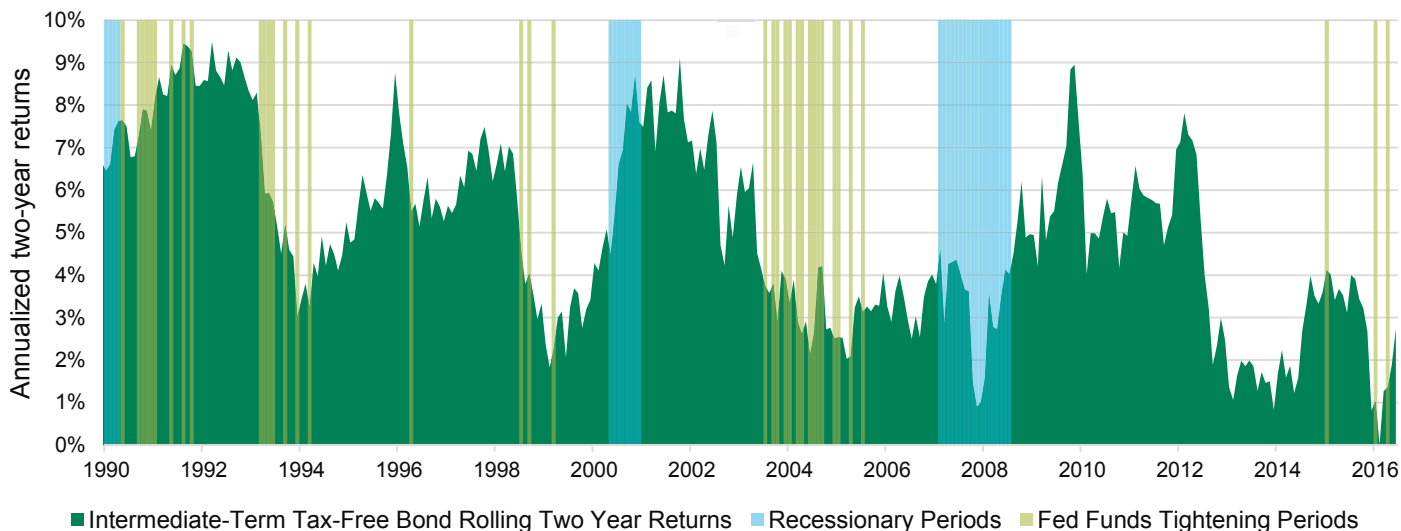

### Proven stability

Intermediate-Term Tax-Free Bond's performance history illustrates its appeal as a foundational core holding in a diversified portfolio. Investors who held the fund for two years were rewarded with a positive return 100% of the time since the fund's inception in 1987.

### AMT free

The management team actively seeks to avoid exposure to the Alternative Minimum Tax (AMT). Since 2002 the fund's monthly dividends have been truly federal tax free with no exposure to the AMT.

## Intermediate-Term Tax-Free Bond has delivered positive results in 100% of rolling two-year periods since inception

## Growth of a hypothetical \$10,000 investment

**You should consider the fund's investment objectives, risks, and charges and expenses carefully before you invest. The fund's prospectus or summary prospectus, which can be obtained at [americancentury.com](http://americancentury.com), contains this and other information about the fund, and should be read carefully before investing.**

*Interest rate changes are among the most significant factors affecting bond return. In a declining interest rate environment, bond prices rise and the fund may generate less income. In a rising interest rate environment, bond prices fall. There is no guarantee that the investment objectives will be met.*

*The information is not intended as a personalized recommendation or fiduciary advice and should not be relied upon for investment, accounting, legal or tax advice.*

*Dividends and yields represent past performance and are no guarantee that they will continue to be paid. Fund holdings subject to change without notice.*

*Capital gains are not exempt from federal income tax.*

*Modified duration is the approximate percentage change in a bond's price assuming a 100 basis point change in yield and assuming that the bond's expected cash flow does not change when the yield changes. The Average of Morningstar Muni National Intermediate Bond Category is an average of all the funds in this category. It is not an investment product available for purchase.*
